

SAT AND ACT FOR JUNIORS – FALL 2010 Bespoke Manhattan

Introduction to the SAT (SAT Basic/Intermediate)

Bespoke's SAT course will improve your confidence and test-taking skills by giving you an in-depth knowledge of the SAT exam so that you can walk in on Test Day knowing exactly what to do. Classes will cover the content and strategies for all sections of the SAT and will include both Bespoke's materials and real, released questions. Each course includes full-length, released SAT sections taken under timed conditions so that you can practice in a test-like, proctored environment.

Students receive a 350+ page lesson book filled with Bespoke's practice questions, homework, drills, and strategies.

The ACT Exam

Bespoke's introductory ACT course is essential if you want to take the ACT exam. You'll learn how to manage your time effectively on all sections of the test, an important skill given the exam's time constraints. You'll cover lots of math, including important formulas, and do a complete grammar review. You will also learn how to handle the science section and improve your reading comprehension skills. There will also be many opportunities for timed practice and review of actual ACT exams.

Students receive a 350+ page lesson book filled with Bespoke's practice questions, homework, drills, and strategies.

[Bespoke's expert instructors are also available for private tutoring.](#)
